5. [redacted] met with James Kendall, of the Senate Subcommittee on Preparedness Investigation, to discuss some of the ground rules for the briefing on next Tuesday. We covered the topics of staff clearances and procedures covering the handling of the transcript. It was suggested to Mr. Kendall that the transcript be retained in the custody of the Agency subject to call from Mr. Kendall, or as an alternative, depositing of the transcript in the security facility of the Joint Committee on Atomic Energy. Mr. Kendall expressed his dissatisfaction with either of these arrangements rather strongly. He pointed out that the purpose of the briefing was to provide the subcommittee with an assessment of the threat and that if we were to deny him a transcript, which he could use as a reference tool during military posture hearings, it would be of little use to him. Kendall said he was perfectly willing to dismiss the shorthand reporter if we wished to cover certain parts of the testimony off the record if this would solve any problems. We told Mr. Kendall that we would look into this further and be back in touch with him.

ADDENDUM TO JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Thursday - 28 March 1968

1. [] Discussed with Senator Henry M. Jackson the employment freeze section of the Smathers-Williams substitute tax bill. He readily recalled a similar situation last year and immediately put in a call to Senator Smathers asking him to have CIA included in the exemption from the freeze. Senator Smathers stated he would go along with this and would take it up with Senator Williams. Since we had worked last year with Senator Milton Young, I advised Senator Jackson I would next see Young on this.

STAT

2. [] I saw Senator Milton Young on the Smathers-Williams bill and he agreed to speak to Senator Williams on this. Senator Young stated he foresaw no trouble with Williams. It was agreed that probably I should not take it up with Senator Mundt and Senator Young stated he would call on Mundt if he needed assistance.

STAT

3. [] Briefed William Woodruff, Senate Appropriations Committee staff, on the actions taken with Senators Jackson and Young so that he would be alert to the situation if called upon.

STAT

4. [] Later in the day discussed the pending situation with Senator Milton Young who stated that Williams and Smathers both had agreed to this although there were some parliamentary questions involved. Consequently, he and Jackson had taken this up with Senator Russell.

3. [] Colonel Outlaw, OSD Legislative Affairs Branch, called indicating that Representative Clarence Long was pressing them for an analysis of Neil Sheehan's article. Since we are mentioned in this, Colonel Outlaw inquired if we were issuing any statements on this. I explained to him that officially our position on this, as in other matters alleging Agency involvement, would simply be "no comment."

25X1

4. [] Talked with Boyd Crawford, House Foreign Affairs Committee staff, explaining Representative Fraser's request for information from the Agency on the pacification program. Mr. Crawford was fully familiar with this and agreed that no purpose would be served by our taking it up with Fraser. After some discussion, he agreed that he would take it up with the Chairman with the thought that possibly it would be better coming from the Chairman to Fraser that the Agency could not be called upon on this kind of matter under standing arrangements with the Chairman of the CIA Subcommittee of House Armed Services. Mr. Crawford promised to advise how this worked out.

Mr. Kelleher stated he would again raise this with Mr. Philbin and let us know.

1. [] Called on Senator Eastland to discuss S. 917. I noted that this bill is coming before the full Committee on 27 March and that it is our understanding that the bill will engender considerable discussion and possibly some amendments. I pointed out language which the Agency together with Department of Justice and NSA had worked out with the staff of the Subcommittee to permit eavesdropping in certain national security cases. I told Eastland that my main reason for seeing him was to preserve this language in the case of amendments to the bill. Eastland assured me that he was very much with us and would do what he could to protect our interest.

4. [] Mr. Murphy, Joint Committee on Atomic Energy staff, called and asked if the Agency's budget or personnel ceilings are going up or down for Fiscal Year 1969. He said he was interested in any unclassified statement we could make on this subject. When I queried Mr. Murphy as to the reason for his request, he said that the Committee would be holding hearings on the AEC budget in the near future and he is interested in knowing what other departments and agencies such as State, DOD, NSA and ourselves would be doing. He said if there was no unclassified information available or no unclassified statement made by the Agency, he would eliminate our Agency from his comparisons. [] Herb Roback, Staff Administrator on the Military Operations Subcommittee of the House Committee on Government Operations, called referring to today's New York Times editorial on Vietnam strategy. Roback said that they were trying to straighten out their thinking, particularly with respect to estimates of revised strength and wondered if anyone here was available to talk with him about it. I suggested to Roback that since this was essentially a military matter, he contact General George Brown or DIA. Mr. Roback asked if we were not briefing anyone on these matters. I told him that we briefed our Agency subcommittees regularly but that I had made the suggestion since we felt that General Brown or DIA were in a better position to be of assistance to him. 6. [] Talked with Joe Bell, Senate Subcommittee on Criminal Law and Procedures staff, regarding the status of the wire tapping legislation. I specifically queried him on the problems which might be involved with respect to language , agreed upon in Title III of S. 917, Senator Hruska should be successful in attempting to substitute his bill (S. 2050) over the McClellan bill as reported by the Subcommittee. Mr. Bell pointed out that there was no disagreement between McClellan and Hruska with respect to Title III on wire tapping. Therefore, he would not expect any problems concerning the language which we, the Department of Justice, NSA and the Subcommittee staff had agreed upon.

Mr. Bell informed me that the full Judiciary Committee has scheduled action on S. 917 legislation on Wednesday, 27 March and Senator McClellan hoped to bring this legislation up for floor action by the Senate during the first week of April.

OFFICE OF LEGISLATIVE COUNSEL

Thursday - 21 March 1968

25X1

1. [] Met with Mr. Larry Marton, in the office of Representative Seymour Halpern (R., N.Y.), as a follow-up to my earlier meeting regarding a constituent request for comments on the Henry J. Taylor column of 14 February. Mr. Marton was very pressed for time, as he has been during the week in an apparent special project for Mr. Halpern. He did, however, scan the draft response that I provided for his use. If further conversations are necessary and his schedule allows it, it may be necessary to talk to him at a later date on this subject.

25X1

25X1

2. [] Met with Miss Weinstein, in the office of Senator Robert Kennedy, and reviewed with her the correspondence from [] concerning charges against CIA made by Andreas Papandrea. I provided Mrs. Weinstein with the State Department's statement that the charges are without foundation, which was reported on 12 March in the Washington Post. No written response from the Agency to the Senator's request will be necessary.

3. [] Met with Mrs. Sue Self, in the office of Senator Strom Thurmond, concerning the Senator's request for assistance in responding to [] concerning Government employment of pilots for use in foreign countries. Mrs. Self expressed her appreciation for the visit and advised that she would make direct contact with other possible employers and close out the Senator's transmittal request to this Agency. No written response from the Agency will be required.

4. [] Met with Mr. Richard Spears, Special Research Assistant to Senator George Murphy (R., Calif.), and reviewed with him the correspondence from State Senator Fred W. Marler, Jr., concerning the CIA recruitment interviews at Chico State College. Senator Marler, a friend of Senator Murphy, is critical of what appears to him, in this instance, to be a "roll over and play dead" policy in the face of picketing by a mere dozen or so students. Mr. Spear indicated that he felt that he could speak for the Senator that he agrees with Mr. Helms' policy and that he will respond directly to Senator Marler, more or less endorsing our policy. No written response from the Agency will be required.

25X1

5. [] Met with James Wilson, Technical Consultant, and Mr. Frank Hammill, Counsel, House Science and Astronautics Committee, in response to Mr. Wilson's earlier request for advice concerning an invitation received from the Soviet Embassy. I advised that the reception is for Congressional staff personnel and that invitations had been forwarded to some 50 to 75 staffers and their wives.

1. [] James Devall, Bureau of the Budget, called and said that Jay Sourwine, Chief Counsel, Senate Special Subcommittee on Internal Security, had informed him that he had received from the Agency a no objection report on S. 2988. I informed Devall that this was not correct, that in fact we had made no report whatsoever. I did note that I had told Sourwine that we would not submit a report because we had nothing of substance to comment on and that Sourwine may have interpreted this to be a no objection report. I noted to Devall that as he knew our report to the Bureau of the Budget was no comment. Devall was satisfied with this answer.

25X1

2. [] Spoke with Robert Hull, Department of State, who reported that the House Committee hearing on the Foreign Service Annuity Adjustment Act of 1968 had gone well. He also said there was no change in status of the retirement incentive proposal.

25X1

3. [] Delivered to Mr. William Woodruff, Senate Appropriations Committee staff, the 1969 budget book and the "horse blanket" per his earlier request.

25X1

4. [] Talked with Robert Michaels, House Appropriations Committee staff, about scheduling the Agency budget hearing. He indicated that since the NRP briefing had not been completed, he could give no indication of when we may be called upon. He indicated it did not look like it would be next week, however.

Mr. Michaels showed me the summary and detailed inventory of real property and the Agency listings are explained as the FBIS monitoring stations and he has no further question on it.

25X1

[] A team from Department of Defense, composed of Flax, Foster, Hoover, Holleran, and Colonel Carter, briefed Representatives Mahon, Bow and Lipscomb and Robert Michaels, of the House Appropriations Committee staff, on the 1969 budget for the National Reconnaissance Program. Messrs. Carl Duckett, John Clarke, and John S. Warner were present from the Agency. The briefing seemed to go rather well although the subject was not completed. Mr. Duckett several times was called upon for comment on aspects of Agency programs. See Memorandum for the Record.

8. [] Mr. Mahoney, in the office of Representative Robert L. Leggett, called indicating the Congressman would like an early briefing on Vietnam particularly the enemy strength. I talked with Mr. Philip Kelleher, House Armed Services Committee staff, about this, reminding him that last July Mr. Leggett had made a similar request. Chairman Rivers had stated at that time that he did not feel that members, other than the CIA Subcommittee, should be briefed by the Agency. 12. [] Met with Mrs. Margaret Turner, in the office of Representative Thomas S. Foley (R., Iowa), in response to Mr. Foley's letter relating to an ostensible CIA recruitment advertisement published by the Carillon, University of Saskatchewan. I advised Mrs. Turner that this was an unauthorized publication, that the text was taken from an advertisement placed by the Agency in the College Placement Annual and that we knew of only four other instances where such unauthorized advertisements have been published. Mrs. Turner thanked me for coming by and advised that she would call if Mr. Foley had any other questions after she has had time to brief him. Unless Mr. Foley determines otherwise, no return response to his letter will be required.

[] Mrs. Jones, in the office of Congressman Joe Skubitz, called to say that they had received an inquiry from a constituent having to do with an alleged shipment of French grain to Russia by the Agency. Mrs. Jones was contacting us for our assistance on this. She had in mind obtaining an Agency response to the Congressman. I told her that we did not normally comment on press allegations, but said that I would have someone contact her on Monday to see if we could assist her in preparing a suitable response.

1. [] In response to a further inquiry from [] Pictorial Services Branch, concerning an inquiry from House Committee on Un-American Activities on a VietCong film on how to drive the Americans out of Vietnam, I called Donald Appell, of HCUA, to ascertain specifically what is desired. Appell wants to obtain a film which was shown at the Bratslavia Conference of U.S. left wingers, North Vietnamese, and representatives of the National Liberation Front. These films were described in the January-February 1968 issue of Dissent. I told Appell I would check into this and be back in touch with him. See Journal of 12 March.

25X1

2. [] indicated that he is interested in obtaining any further correspondence from [] similar to that which was originally furnished to us from the office of Representative H. Allen Smith (R., Calif.). It was agreed that I would be in touch with Smith's office to discuss this with them.

6. [] Attended a meeting at Justice Department in connection with the President's Memorandum of 16 February entitled "Security of Classified Information." The meeting was principally directed to exchange of information as to how the various concerned agencies went about the problem of security clearances for staff people on the Hill. Compartmented classifications were not discussed. See Memorandum for the Record.

25X1

7. [] Talked with Robert Michaels, House Appropriations Committee staff, giving him a little biographical material

25X1

[] This satisfied the questions Chairman Mahon had raised.

Also discussed with Mr. Michaels some questions raised by Chairman Mahon arising out of the 6 March article by Alsop on North Vietnamese forces in South Vietnam. Based on my discussion with George Carver and the Intelligence Memorandum on this subject of today's date, I was able to supply the necessary information.

Mr. Michaels also indicated that Representative Glenard Lipscomb had raised a question about the Jack Anderson column of today, his principal concern being whether it was an actionable breach of security. Michaels stated nothing was needed from us on this and he was merely alerting us to it.

25X1

Mr. Michaels also indicated that he would have some questions concerning [] and NSA involvement. He also queried whether John Clarke could meet with him on Monday, 13 March, at ten o'clock for a general briefing on the 1969 Agency budget.

Mr. Michaels asked, on behalf of the Chairman, for a list of those staff members of the full Committee who had TOP SECRET clearances.

25X1

1. [] Notified Donald Appell, House Committee on Un-American Activities staff, that we were unable to identify the film which he had requested. Appell said he thought this would be the case and thought it best that we leave the matter in abeyance until they have had an opportunity to be in touch with Samuel Schwarzchild, the author of the article in Dissent which described the film.

25X1

2. [] Mr. Wayne Granquist, Administrative Assistant to Senator Abraham Ribicoff (D., Conn.), called me at home to determine if the Agency had an employment program for applicants at the graduate school level which would satisfy an individual's military draft obligation. This was on behalf of a graduate student who had heard that the Agency had such a program. I explained the general nature of our recruitment programs and that service with the Agency in a civilian status did not satisfy an individual's military obligation. This satisfied Granquist.

25X1

3. [] Mr. Robert Michaels, House Appropriations Committee staff, advised during the course of the day that he had been misinformed and it had not been Representative Lipscomb who had raised the question on the Anderson article of 13 March, but rather Representative John Rhodes. He had expressed a concern that there should be a way to prosecute for publishing classified information but has no desires for any information or action at this time.

25X1

4. [] Checked on the status of the DIA building. Gordon Neese, Senate Armed Services Committee staff, pointed out that, of course, it had been authorized a few years ago and Frank Sanders, of House Appropriations Committee staff, advised there had been no appropriations and he is advised there is no money in the 1969 budget for it.

9. [] Met with Mr. Charles E. Johnson, Staff Director and Mr. Joseph Winslow, Staff Counsel, Committee on Post Office and Civil Service. The letter of 7 March to the Director from Representative James M. Hanley (D., N. Y.), Chairman of the Position Classification Subcommittee, on CIA participation in a study of civilian classification systems in the Executive Branch was reviewed. It was noted that Agency exemption from the Classification Act is based on security considerations and informally agreed that the Agency would have little of substance to contribute. In general, we follow the Classification Act standard and do consult with the Commission on problems arising thereunder. Although no return response to Chairman Hanley's letter is necessary and no final designation need be made of a person to act as liaison in this matter, it was requested informally that consideration be given to meeting with Mr. Winslow so that the Subcommittee may be protected in the event question should arise later regarding CIA participation in the review. I advised that I would relay the request, and would be back in touch with Mr. Winslow during the coming week.

[] Received a call from Mr. Philip Kelleher, Counsel, House Armed Services Committee that S.1036, relating to coercion in the military forces and the solicitation of charitable contributions and the sale of war bonds, is to be put over until next week, and advised that questions will be raised by the Committee on the substance and merits of the bill.

14. [] Talked briefly with Miss Marge Almloff, in the office of Representative Don Clausen, and advised that the Congressman may anticipate a favorable response with regard to Mr. [] request for extension of time for retirement. Miss Almloff was much appreciative, and asked that the Agency's written determination be forwarded as soon as possible.

25X1

15. [] Met with Mr. Benny Kass, Subcommittee on Administrative Plans and Procedures, and returned to him the transcript of the 6 February hearing on computer privacy. Advised that in response to his informal request, our people had reviewed the transcript and the related Subcommittee documents, and had found that the Subcommittee apparently had talked to the right people on the right subject, asked the proper questions, and had received the correct answers. We could add little to the considerations already reviewed other than those related to security needs. Mr. Kass was most appreciative and thanked us for our review.

25X1

16. [] Talked at some length with William Paisley, and Joe Bell, Senate Subcommittee on Criminal Laws and Procedures staff, with respect to the pending wiretap legislation. They advised me of a proposed change in Title III (new section 2511 of Title 18). At the request of the Department of Justice, on behalf of the FBI, a change would be made in S. 917 to delete words authorizing the use of wiretap "to protect the United States from domestic groups or individuals who advocate the overthrow of the Government" and substitute in lieu thereof "to protect the United States against the overthrow of the Government by force or other unlawful means, or against any other clear and present danger to the structure of the Government." The sentence in which this change would be made follows the language which we requested and would not affect our interests. Paisley and Bell went on to say that while S. 917 is the pending legislation in this Subcommittee, no specific action is scheduled at this time and it is well known that Senator Hruska will press for action on his bill (S. 2050) in full Committee and on the floor if necessary.

He also referred to an article by Henry J. Taylor in the NASHVILLE BANNER of 19 February 1968. Apparently Representative Joe Evins had asked Mr. Mahon about this. 11. [] Mr. William Darden, Senate Armed Services Committee staff, called attempting to ascertain when either he or the Committee had been first briefed on FOBs. I mentioned in the briefing of the Committee on 19 January 1968 we reviewed when we had previously briefed the Committee on this subject. In any event, this seemed to serve his purpose since he had gotten additional information on the subject from other classified transcripts.

12. [] Met with Mr. James Wilson, Technical Consultant, House Science and Astronautics Committee, and updated the information previously provided for the Chairman regarding the recent Soviet space event.

13. [] Met with Mr. William E. Spell, Assistant to Senator John Stennis, who requested certain FBIS reports relating to Vietnam. The reports will be forwarded to him tomorrow.

1. [] Eugene Kinnaly, Administrative

Assistant to Speaker John McCormack, called to inquire why the Agency had not promoted [] about whom the Speaker's office has previously contacted us. Mr. Kinnaly feels that since she is approaching retirement age, the subject of what he considers to be a long-overdue promotion becomes increasingly important to her. I told Mr. Kinnaly it was my impression that we had done everything we could for Miss [] when he had contacted us about her [] some months ago, but that I would look into the situation and be in touch with him.

2. [] Miss Pat Patterson, Senate Foreign Relations Committee staff, called and requested an item from the FBIS Daily Report No. 80 dated 24 April 1967, having to do with North Korean trade and foreign assistance. I told Miss Patterson I would check on this and be in touch with her.

Mr. Simmons, State Department, called to say they were preparing some material for the Senate Foreign Relations Committee and desired our approval to send to the Committee an Intelligence Memorandum, [] on the subject of North Korea's Foreign Trade. I talked with Mr. Simmons and learned that this item had not been specifically requested by the Committee, but was being considered by the Department in response to a general request from the Committee for information on this subject. I told Mr. Simmons that we would prefer that this item not be included in material furnished to the Foreign Relations Committee in the absence of a specific request.

4. [] Met with Miss Patricia Wesley, Assistant to Senator Claiborne Pell (D., R. I.), and discussed with her the correspondence from [] relating to CIA operations in Cuba. Miss Wesley will provide a non-committal reply to the constituent using the unclassified Agency pamphlet entitled "The Central Intelligence Agency."

5. [] Met with Miss Barbara Bengston, Personal Secretary to Senator Jack Miller (R., Iowa), and confirmed with her Senator Miller's visit to the Agency scheduled for Tuesday, March 12. It was agreed that we would work out the details for transportation later in the week. It was noted that the Senator's time and attention is fully occupied at the moment with the Civil Rights Bill on the floor of the Senate.

6. [] Met with Mr. Charles Johnson, House Post Office and Civil Service Committee, and discussed with him various items of pay legislation and the current considerations relating to review of the congressional executive and judicial salaries.

7. [] Kay Williams, in the office of Senator Daniel B. Brewster, called asking that an appointment be made with our Personnel Office for Friday, 8 March 1968 at two o'clock for [] who is interested in making application for a position with the Agency. This was set up with [] and Miss Williams was so advised.

8. [] Talked with Senator Birch Bayh referring to his efforts to try to reach the Agency from Indiana recently. I indicated that I assumed he got the messages that we had tried to respond to him and wanted him to be assured that we wanted to be responsive. He stated he had received the messages but with his hurried travels in the State, the problems he had in hand were confronted before we could make contact. He was appreciative of my checking in with him.

9. [] Vincent Augliere, Subcommittee on Foreign Operations and Government Information of House Government Operations Committee, wanted []

10. [] Talked with Bill Woodruff, Senate Appropriations Committee staff, in connection with Senator Mundt's concern over the interpretation of the various figures on Soviet Bloc aid to North Vietnam. This matter has been up before and after discussing the problem, Woodruff said he thought that one way of handling it would be to furnish him with the appropriate figures and he would discuss it with the Senator. I indicated I would be back in touch with him in a few days when our figures for the full calendar year 1967 are ready.

11. [] Mr. Robert Michaels, House Appropriations Committee staff, called this morning saying he had some classified materials which were now surplus to his needs and he requested that we pick them up for destruction.

25X1

12. [] Talked to Jay Sourwine, Chief Counsel, Senate Special Subcommittee on Internal Security, concerning the Eastland bill, S. 2998, and among other things asked what relationship, if any, there is between Title VI of this bill and the Dirksen bill, S. 2778. Sourwine said that Title VI is a gutted version of the Dirksen bill and was intentionally stripped of the more important sections as S. 2778 is very controversial and hearings probably could not be completed before the end of this Congress. It is Sourwine's opinion that S. 2778 is dead.

OFFICE OF LEGISLATIVE COUNSEL

Monday - 4 March 1968

1. [] Bill Darden, Senate Armed Services Committee staff, called during a lunch break in the military procurement hearings. He said Senator Symington had asked him to obtain some information on four Soviet bombers: the BEAR, the BISON, the BADGER and the BLINDER. Senator Symington wanted to know when these aircraft entered the Soviet inventory and the numbers of these aircraft now in use. At my request, Bruce Clarke called Mr. Darden and provided him with this information.

25X1

2. [] Met with Jim Gehrig, Senate Aeronautical and Space Sciences Committee staff, and provided him with some basic information on Saturday's Soviet space shot. Gehrig said he had been immersed in Committee hearings and hadn't even been aware of this shot. He very much appreciated my dropping by to give him this information.

25X1

3. [] Talked to Joseph Matan, Staff Administrator, House Subcommittee on Legal and Monetary Affairs, concerning the Subcommittee's request for a letter from the Agency detailing Agency participation in the war against organized crime. I pointed out that the Agency is prohibited by law from engaging in police or internal security activities and that any contribution we could make on this subject would be purely by-product from our intelligence activities. I also noted that whatever reply we gave, we were almost sure to come under attack from certain of the news media. I requested that the Agency be excused from replying to the letter. Matan understood the problem and said he could not categorically excuse us from a reply, but would not push us to reply and suggested that we be dilatory in answering which would permit him to publish the report without receiving anything from us.

5. Mr. Wilson requested, if possible, that the Chairman be kept advised of further developments.

6. [] Attempted to meet with Marge Almloff, Assistant to Representative Don Clausen, but she was away from the office.

7. [] Met with Miss Elizabeth Kernan, Scientific Research Assistant, House Science and Astronautics Committee, and discussed with her at some length various statutory Inspector General positions within Government and Representative Fulton's guidelines to the Committee staff. Miss Kernan was most appreciative of the assistance provided and at least present considerations do not require the Agency's assistance.

25X1

8. [] Delivered to Robert Michaels, House Appropriations Committee staff, two copies of the FY 1969 budget book and one copy of the FY 1968 budget book. He said Representative Lipscomb had asked for this and he wanted to do some preliminary study. He indicated he had been discussing with the Chairman the PUEBLO incident and the Chairman indicated he might wish to talk with the Director. After reviewing some of the points Mr. Mahon had in mind, I suggested to Michaels that these were matters about which we did not have firsthand knowledge and it would be far more appropriate to get these into the appropriate components of the Defense Department.
